

MEA SCORES AT KING MIDDLE

Mike McCarthy became the principal at the King Middle School in 1988. At that time, King's scores on the Maine Educational Assessment trailed the district and state scores in all three content areas.

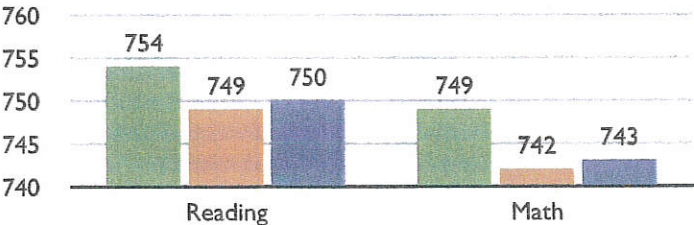

Since that time, King has outperformed both the district and the state. The following graphs show three year cumulative average scores for the last three years the State of Maine administered the MEA.

Sixth Grade MEA Scores 2007-2009 (cumulative averages)

Seventh Grade MEA Scores 2007-2009 (cumulative averages)

Eighth Grade MEA Scores 2007-2009 (cumulative averages)
